SECOND INFORMATION DISCLOSURE STATEMENT

Respectfully submitted herewith is a copy of a European Patent Office Search Report (4 pages) together with copies of its 6 cited references.

In the European Patent Office Search Report the references listed with an A mean that these references define the general state of the art which is not considered to be of particular relevance with respect to the listed claims of the European Application. The references listed in category X mean these documents are of particular relevance, and the claimed invention cannot be considered to involve an inventive step when these documents are taken alone with respect to the listed claims. The references listed in category Y mean these documents are of particular relevance with respect to the listed claims; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more such documents, such

combination being obvious to a person skilled in the art. Since the European Patent Office Search Report is in English and it points out in English the relevant portions of the citations listed in the European Patent Office Search Report, and the four US patents and the EP patent application are in the English language, no further concise explanation should be required.

A PTO-1449 form is submitted listing all six submitted references. Translation of the foreign language references is not available to the undersigned.

A Certification is also provided under 37 CFR 1.97(e).

This submission meets the requirements of 37 CFR §1.56, 1.97 and 1.98(a) and MPEP 609.

Respectfully submitted,

Keisuke Shikuya
